

Name: Castello del Graal **Sleeps: 54** **Area: Chianti**

Maximum Capacity for Events: Outside 120 Inside 70

Minimum Stay: 2 nights for exclusive rental

Castello del Graal, dating back to the 10th century, is a setting so true to its aesthetic origins that the entire complex seems somehow magically suspended in a century long gone by. Although the structure was recently completely renovated and modernized in order to welcome even the choosiest of guests, the original architectural features were left entirely intact. Guests are accommodated in the rooms and suites of the Castle and its tower, with the large apartments of the nearby farmhouse lending additional space for large groups. This enchanted setting is a perfect place to take in the sights and smells of the legendary Chianti region. Castello del Graal's guest quarters, where history and romance coexist in total harmony, boast antique furniture, bathrooms with double-headed marble showers, air conditioning, minibar, telephone, satellite TV and access to the tower's spacious terrace where a heated five-seat spa is available. These luxurious rooms, full of distinctive ambience, are sure to make guests feel like royalty.

Additionally, the spacious farmhouse offers fully independent flats that have been modernized while still retaining the original, charmingly rural features. Built in stone and boasting a gorgeous view from each and every window, the flats are particularly suitable for families as bath towels and bed linens are changed regularly with a weekly cleaning. Each apartment has full cooking facilities and either a terrace, a patio or an open courtyard enabling guests to enjoy plenty of fresh, Tuscan air.

The property is suitable for weddings with up to 50 guests, available for exclusive rental for a minimum of two nights. For couples wishing to celebrate their wedding with a big party and lots of loved ones, the charming atmosphere of Castello del Graal is ideal.
